

VITAMIN-C 40% SOAP INSTRUCTIONS

WARNING:

IF YOU HAVE KNOWN ALLERGIES TO ANY OF THE INGREDIENTS IN THIS SOAP DO NOT USE IT. THIS SOAP IS TO BE USED BY **ADULTS 18+** ONLY. THIS PRODUCT IS NOT FOR USE ON PREGNANT OR NURSING MOTHERS. IF YOU ARE CURRENTLY TAKING MEDICATION FOR SOME ILLNESS OR CONDITION, PLEASE CONSULT YOUR PHYSICIAN BEFORE USING THIS PRODUCT.

SIDE EFFECTS:

This soap may be drying to your skin. Be sure to always keep your skin moisturized. If you have especially dry skin, use a little Vaseline after applying your skin bleaching cream.

CURRENT SKIN BLEACHERS

If you're currently using my Saliclear, Tretinoin Gel, and my skin HQ cream, or Mequinol cream this potent skin bleaching soap will boost your skin whitening results by 1000%!

NON-SKIN BLEACHERS & THOSE NOT CURRENTLY USING MEQUINOL

This is a very **strong** herbal skin whitening soap. This soap is used for boosting skin bleaching results while using herbal skin whiteners or high-dose skin bleach, and should only be used by those who are currently using skin whitening creams/serums. If you're not currently exfoliating with Saliclear & Tretinoin, you WON'T see any results from using this skin whitening soap.

NEEDED ACCESSORIES/TOOLS

You'll need to purchase a pair of 'Exfoliating Bath Gloves' and 'Exfoliating Facial Scrubber' to use this skin whitening soap properly, so you can receive the best results.

DIRECTIONS:

Bathe with this soap 1-3 times daily to boost your skin whitening results from skin bleaching cream/serums, or to gradually lighten your skin 1-2 shades & even skintone.

Choose an area that you'll be treating. Apply the soap paste directly to your skin without water. Apply it all over your skin like a mud mask. Let it sit for at least 5 minutes. Then put on your exfoliating gloves (*silicone scrubber for face*) *lightly* wet them. Now scrub your skin in a circular motion and work up a good lather. Now rinse your body. For more intense whitening (and instant whitening effect) after you apply this soap, wrap you skin in plastic wrap and let the soap sit for 15 minutes then shower.

When you get out of the shower you can continue with your daily skin lightening regimen as usual. If you are not using skin bleaching cream. Go ahead and apply your Saliclear/Tretinoin gel per the directions, and then a thin layer of Vaseline to moisturize your skin.

STORING YOUR SOAP

Keep the desiccant card inside the top. This desiccant card will preserve your soap and stop it from oxidizing as fast. After use, always replace the top, then store the in a cool dry place away from direct heat or sunlight. This will preserve and prolong effectiveness of the soap & prevent rapid oxidation.
